DETAILED ACTION

1. Receipt is acknowledged of the response of 14 October 2005.

Allowable Subject Matter

2. Claims 1-15 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach a card with a magnetic ring zone and a magnetic stripe zone and a reader with a stationary read mechanism to read data by placing the card proximate the reader. The Examiner notes that the art of record to King (see previous Office Action), appeared to teach the limitations of the magnetic stripe and ring zone on the same side of the card, but did not constitute prior art in light of the CIP date of the current application. Additionally, the art of Conner et al. (see below) appears to teach the card limitations, but again does not appear to constitute prior art. The prior art of Fujimoto et al. and Kojima (see below) appear to be to cards with ring shaped magnetic storage.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Conner et al. (US 2005/0194453, 2003/0024995, and 6,832,730), Fujimoto et al. (JP404163100A), and Kojima (JP402165478A).
